

# Your One-Stop Shop

When it comes to CVD SiC, technical ceramics and hard materials, PremaTech has everything you need.

With expertise to help you choose the right materials and shapes, we also manufacture, machine, grind and polish components and parts to meet the most demanding specifications.

By working with us, you'll optimize the use of silicon carbides, silicon nitrides, alumina, zirconia, ultra-hard metals, boron nitride, ferrite or quartz for applications in:

- > Aerospace & Defense
- > Commercial
- > Life Sciences
- > Medical
- > Optics
- > R&D
- > Power Generation
- > Semiconductor Manufacturing
